

Curricular Plan French BA

A curricular plan provides a roadmap for completing this academic program and the UB Curriculum in four years. Your actual plan will vary according to your point of entry to the University, any earned alternative or college transfer credit you bring in, waivers based on standardized test scores, and notably, the level at which you begin French study at UB. You should begin at the highest level for which you are prepared. For many students this will be the intermediate level (FR 151 and 152) or above, but starting at a lower level will not prevent you from completing your degree in four years. If you start your French major in FR 101 or 104, you will follow the same path as those who start at a higher level, except that in your junior and senior years, when you are completing your French requirements, you will take fewer general electives.

You should test your preparation using a self-assessment tool on the website of the Department of Romance Languages & Literatures, and consult departmental advisors for any needed follow-up assistance in choosing a course.

You are encouraged to adapt this sample plan as appropriate in consultation with your academic advisor and with the help of other academic planning resources such as the Academic Advisement Report (on HUB), My Planner and the Path Finder tool.
